YOUR SOURCE  
FOR LUMBER

NorSask's stud lumber (92<sup>5</sup>/<sub>8</sub>", 96", 104<sup>5</sup>/<sub>8</sub>") quality specifications are clearly defined  
...so you can count on consistency within every lift

Defect type	NorSask Stud Grade Minimum Specification
Wane	For 2X4: 1/4" x 1/2" full length (equivalent not to exceed one third thickness x one half width for up to one quarter the length of the board)  For 2X6: 1/2" x 1" full length (equivalent not to exceed one third thickness x one half width for up to one quarter the length of the board)
Skip	Hit or miss less than 1/8" for 2', face or edge, less than 1/16" full length, 6% or occasional board
End split	Less than width of board
Shake / Check	'Through' shake limited to 12" long, 'not through' limited to quarter length of board
Warp – crook/twist/bow/cup	Medium
Manufacturing defects	Maximum of two allowed per board
Pockets and pitch streak	4 sq inches or equivalent
Stain	Medium
Slope of grain	1 in 4
Pin holes	16 per inch of knot hole
Grub holes	2 per inch of knot hole
White speck	1/3 volume, firm
Honeycomb	1/6 width of the board
Unsound wood	None

***NorSask lumber...consistent, available and with no surprises.***

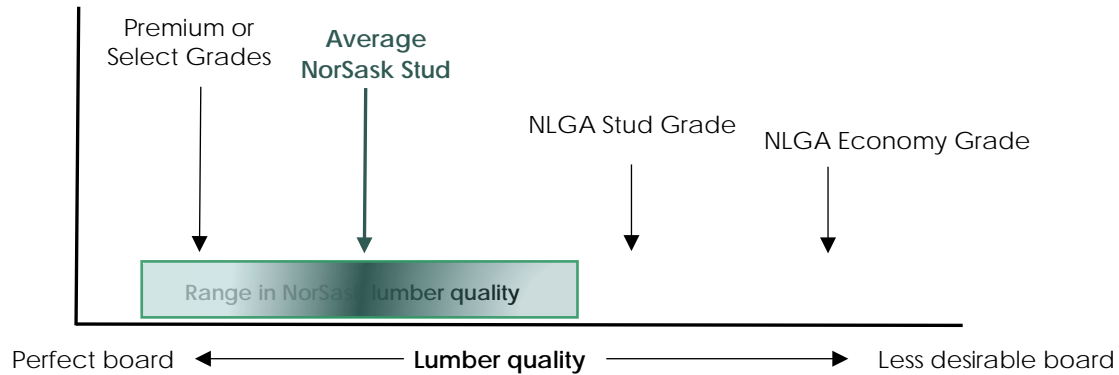

NorSask's lumber product is comprised of a blend of boards ranging from 100% defect-free to moderate amounts of defect (as per the specifications shown above)

So how would we rank our NorSask stud lumber?

Remember!

NorSask's stud grade has no prior select lumber product removed...a lift of NorSask lumber contains all of our perfect boards in the mix too.
