YOUR SOURCE  
FOR LUMBER

NorSask's stud lumber (92<sup>5</sup>/<sub>8</sub>", 96", 104<sup>5</sup>/<sub>8</sub>") quality specifications are clearly defined  
...so you can count on consistency within every lift

Defect type	NorSask Stud Grade Minimum Specification
Wane	Not to exceed 1/3 thickness x 1/2 width full length
End split	Less than twice the width of board
Shake / Check	'Through' shake limited to 1/3 length
Warp – crook/twist/bow	1/2 medium
Manufacturing defects	As per stud grade quality standards
Pin holes	48 per inch of knot hole
Grub holes	12 per inch of knot hole
White speck	Firm
Honeycomb	Firm
Unsound wood	Limited to 1/3 cross section - must not destroy nailing edge.
Moisture content	Not to exceed 19%

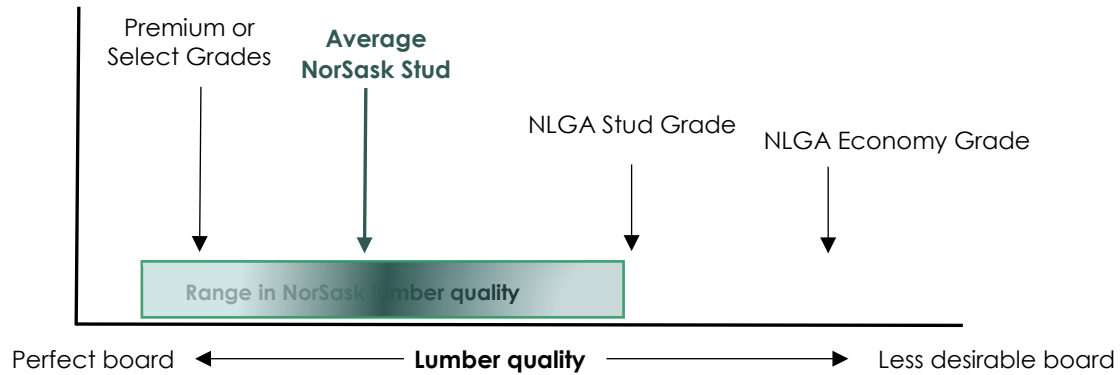

NorSask's lumber product is comprised of a blend of boards ranging from 100% defect-free to moderate amounts of defect (as per the specifications shown above)
