Position and Responsibilities:

- Mig welding steel components based on CAD drawings
- Safe operation of manual and / or semiautomatic welding equipment
- Installation of fabricated components into the final assembled product other general welding shop duties as required
- Working in a team environment in a safe and efficient manner.
- Quality Inspection: checking materials and products for conformance to specifications.
- Ability to work independently under general supervision and complete daily activities according to work schedule.

Qualifications:

- A minimum 5 years of related experience
- Ability to physically handle moderate loads.
- Ability to work well independently and in a team environment
- Overhead hoist and forklift experience an asset
- Own transportation
- Own Tools

To apply please send your resume including certifications by email to Jeff McCallum, Human Resources, MLTC Industrial Investments LP at apply@norsask.ca

NorSask Forest Product LP is especially committed to creating opportunities and removing employment barriers for qualified women, Indigenous persons, persons with disabilities and members of visible minorities. We thank all candidates for their interest; however, only those selected for an interview will be contacted.
